

## Earth Day Community Cleanup in a park

See the difference you can make, when we work together in the spirit of Earth Day®!

During our annual weekend cleanup (April 21-23) and into May, Waterloo residents worked together in the spirit of Earth Day® to help remove litter from parks and trails in Waterloo.

A special thank you to neighbourhood and community groups, corporate teams, and family and friends who carried out a community litter cleanup this spring. Over 500 participants removed over 250 bags of litter plus large items from parks and trails, making Waterloo a more beautiful place to live!
